EDUCATION

- **University of Central Florida**

Bachelor of Arts in Political Science

Orlando, FL

August 2018

EXPERIENCE

- **BTJN, LLC**

Software Developer

Houston, TX

May 2021 - Present

- **Sales Lead Generation Application:** Produced 10,000 sales leads weekly on average. Mined web for data with Python and Bs4. Integrated data with custom Google API Class. Identified valuable leads with Neo4j and JanusGraph backends.
- **CRM Application and Integration:** Deployed a custom CRM solution with Microsoft SQL Server in the Azure cloud. Transformed data locally with Python to maximize value for clients.
- **Business Reporting and Sales Predictions:** Modeled retail sales with the SARINA, Holt-Winter, and Exponential Smoothing models in Python and Jupyter Notebooks. Identified model of greatest predictive power with the Mean Absolute Percentage Error formula.

- **University of Central Florida**

Research Lead

Orlando, FL

Jan 2017 - Aug 2019

- **Research Design:** Ensured rigor of data collection methodology by meeting industry best practices.
- **Database Design:** Defined a third normal database to maintain logical consistency. Refined schema to facilitate porting to Person, Object, Location and Events (POLE) schema.
- **Data Integration:** Standardized integration procedures to verify integrity of files generated by research assistants. Transformed data from Excel and CSV sources into JSON format to index into a noSQL database.
- **Data Analysis:** Analyzed conflict data with Pandas and Excel. Visualized data trends with Matplotlib. Prepared presentation for peer review at the Peace Science Conference at the Hague, Switzerland.
- **Project Management:** Developed manuals to train inexperienced research assistants to query primary sources and code data points. Led team to achieve project goals prior to deadlines defined in our research grant.
- **Human Rights Abuse Frame Work:** Aggregated corpus of international human rights law to cross reference with abuse events.

- **University of Central Florida**

Research Assistant

Orlando, FL

Jan 2017 - Jan 2018

- **Data Integration:** Aggregated data points generated by student research assistants into database with Python.
- **Sentiment Analysis:** Analyzed sentiment of sentences to determine speaker's emotional state.
- **Automated Sentiment Analysis:** Compared user scored sentences to programmatic scoring to identify errors.

PROJECTS

- **Business Analysis:** Forecasting and analysis projects.
- **Political Analysis:** Conflict, behavioral, and political analysis.
- **Machine Learning:** Machine learning for political analysis.
- **Web Scraping:** Web scraping projects to procure data.
- **Data Integration:** Data Integration and transformation scripts.
- **Google Drive API:** Google API application to transform json data to Google Sheets.
- **Sphinx Documentation Template:** Tutorials and templates to create Sphinx and Jupyter Book publications

SKILLS

- **Computer Languages:** Bash, C, LaTeX, Python, SAS, SPSS, SQL.
- **Technologies:** Azure, Docker, Git, JanusGraph, Jupyter Notebook, Neo4j, Pandas, SciPY, Sphinx, TensorFlow.
- **Data Modelling and Analysis:** Sales Forecasting, Political Analysis, Business Analysis.
- **Spoken Languages:** Cantonese, French, Spanish.
